

You can do many things with Gas, which are utterly impossible on a coal range. One is: You can cook a food requiring a low heat, and one requiring greater heat at the same time, on the same stove.

**COOK WITH GAS** all the year round—to the advantage of your pocket, your feelings, your family and your time.

**GAS is the Cheapest and Best Fuel for All Domestic Purposes**

No question about it. No other fuel will enable you to cook as quick—and with as much cleanliness, convenience and comfort.

**Fleet Evolutions.**  
London, June 10.—Vessels of the combined squadrons of the home and Atlantic fleet are gathering at the rendezvous at Spithead today for a week of evolutions and maneuvers that will afford an inspiring spectacle of Britain's naval greatness. It is announced that the battleships to be built under this year's program will be at least 30 per cent superior to their immediate predecessors. In what way that superiority is to be obtained has not been entirely disclosed, but at least two of the improvements to be introduced are known. In the first place the ten and twelve inch guns with which the ships are to be equipped are to have a greater muzzle energy than those now in use. These guns will be capable of developing a muzzle energy of 53,000 foot tons compared with the energy of 47,000 foot tons of the guns of the Dreadnaughts.

In addition to this increased power, all the 12 inch guns of these new ships may be on either side. For this purpose the deck erections have been reduced to the minimum and the two pairs of guns placed in the center of the ship in barbettes on each wing, but arranged in echelon can sweep through almost a complete circle and fire on the port or starboard side. The other three pairs of guns will be mounted in barbettes in the center line, one barrette being forward and two aft. In one of the latter guns will

be carried at a high elevation. This is considered an improvement on the arrangement of the big guns on the new American ships. The ten primary guns can be fired on either broadside in the American ships, but all the guns being placed in the center line, the bow and stern fire is considerably reduced, there being no guns on the wing. Moreover, British experts consider that the American system makes it difficult to train all the

**To Sell Morse Home.**  
New York, June 10.—Charles W. Morse's Fifth avenue mansion will be knocked down to the highest bidder at a foreclosure sale in the Real Estate Exchange today. It is a five story house, with a frontage of 27 feet and depth of 120.7, adjoining the house of Harry Payne Whitney, at the South west corner of Fifty-seventh street and Fifth avenue.

The action is brought by John E. Berwind against Charles W. Morse, Clemence C. Morse, Jennie R. Morse, Montrose W. Houck, John W. Gates, Edward Clarence Jones and William E. Bird, Jr., all of whom, he alleges "have or claim to have some interest in or lien upon the said premises." It is to secure a second mortgage on the property of \$350,000, which with the interest now amounts to over \$400,000.

**Buyers Bid for Roswell Wool.**  
A public sale of seven big clips was held at the Roswell Wool & Hide Co. warehouse this afternoon with fourteen buyers in attendance. A total of about a half million pounds was put up for sale, consisting of the following clips: A. D. Garrett, Klyn, Williams Knollin & Brinck, A. Ingram and Fr. Garcia. At three o'clock four of the clips had been offered for sale, the bids being sealed, but none of the bids had been accepted, the Wool & Hide Company having reserved the right to reject any and all bids.

J. J. Rascoe has returned from a months' stay with his wife, who has been very low for several months and is now stopping with relatives at Balmorea, down near Toyah, and is doing much better. Since his return Saturday, Mr. Rascoe has been staying with his little grand-son, the child of Will Rascoe, who has been very ill with pneumonia.

## DEBATE ON WOOL

Washington, June 10.—The progressives came into the senate today determined to continue the fight against the wool schedules although the votes taken yesterday demonstrated the ability of the finance committee to maintain their majority of ten or twelve on all recommendations.

A vote of 43 to 31 against Dolliver's contention that only wool in yarn should be taxed again upheld the committee.

Before the vote was taken Warren declared the purpose of levying a duty on the entire weight of yarn was to keep out materials mixed with cheap cotton.

Dolliver claimed there was nothing surreptitious in mixing cotton and wool in making cheap yarn and said there is no good reason for discrimination against cheap material. Dolliver then offered an amendment proposing a duty on such wool fabrics as are made partly of cotton. In explaining his amendment he convulsed the senate with his witty remarks on the Dingley law.

**Will Not Spend Money for Canal.**  
Washington, June 10.—The proposed fourteen foot deep-waterway from St. Louis to the Gulf received a blow when, today, the engineers reported it not desirable. They say it will cost \$128,000,000 to build and \$6,000,000 annually to maintain.

(Note.—The annual maintenance would be but the cost of one warship and that not of the first class.)

**Doings in District Court.**  
The suit of Clark Hughes against John McCutcheon, tried in the district court yesterday afternoon, resulted in a verdict for plaintiff for the amount of his labor bill, \$105.15. After hearing motions this morning, court this afternoon took up the case of the territory against Elgin Douthitt, charged with burning the public range.

**The Commission Plan.**

Section 11.—After the passage of this act any city or town having the population herein specified and by complying with the provisions of this act, as to adoption of plan and election and in all other respects as it may apply to the purposes hereof, may adopt a plan of government known as the "commission plan," to be governed by a Mayor and not less than two nor more than four commissioners, all of whom shall be elected at large, residents of the city and when elected, together with the other officers designated in this act to be elected, shall organize and shall divide the government of the city into such departments as it may determine, which departments shall be established by an ordinance of said commissioners, which ordinance shall determine the powers, duties and purposes of any department, and each department shall be presided over by either the Mayor or a member of the commission, and in event such plan as specified in this section should be adopted by any city in this Territory, the Mayor shall receive a compensation annually of \$1800, and other members of the commission shall receive a compensation annually of \$1400 each, and they shall not be otherwise employed, and the said salaries shall be paid from city funds and in manner as the commission may determine, and all laws governing cities in this Territory and not inconsistent with the provisions of this act, and special charter cities, shall apply to and govern cities organized under this section, and they shall have all powers specified in laws now in force in this Territory, which powers shall be exercised through the commission by ordinance and resolutions, and all by-laws, ordinances and resolutions lawfully passed and in force in any city under its former organization shall remain in force until amended or repealed by the commission elected under this section.

The territorial limits of such city shall remain the same as under its former organization until changed as provided by law, and all rights and property of every description which were vested in any city under its former organization, shall vest in the same under the organization herein contemplated and provided for in this section, and no right or liability either in favor of or against it, existing at the time, and no suit or prosecution of any kind shall be affected by such change. Provided, that after the passage of this law, no franchise for a public utility shall be granted by any City Council or other governing body of any city or town in the Territory of New Mexico, until the proposition of
